HEAR FROM OUR STUDENTS

The teachers are very cooperative and friendly. They pay attention to every child individually and doubt sessions are held regularly. I have joined for physics and chemistry , my learning so far had been great and both the teachers are very good.

Nandini Agrawal

MRIS (Batch of '25)

I recently joined Guides Learning Centre and this decision has proven to change my academics for the better. Guides has helped me understand the concepts rather than just rote learning and hence helped me excel not just for school examinations, but also in order to prepare for competitive exams.

Ojal Baswani

LVIS (Batch of '25)

I studied with Sunil sir, Neha ma'am and Nisha ma'am in 11th as well as 12th grade. All credit for my marks goes to them. Their teaching methods were very student friendly; they didn't mind addressing as many doubts as possible or repeating topics several times. They helped me get thorough understanding of the subjects and also have adequate confidence before boards. I will always be grateful for such amazing teachers.
